

#### **Special Work Session**

#### City Commission Special Minutes Great Falls Fire Training Center, 1900 9th St S April 13, 2018

1. Budget/Policy Initiatives - 11:00 a.m.

Mayor Kelly called the meeting to order at 11:05 a.m.

Roll Call: City Commission members present: Bob Kelly, Tracy Houck, Owen Robinson, Mary Sheehy Moe, and Bill Bronson arrived at 11:10 a.m.

Staff Present: City Manager Greg Doyon, Deputy City Manager Chuck Anderson, and City Clerk Lisa Kunz.

City Manager Greg Doyon handed out a "State of the City" recap department summary. He encouraged the new Commission members to set up a time to individually go through introduction to the budget. The packet material will help equip the Commission with information for their consideration to prioritize and, ultimately, adopt the budget which is the Commission's greatest policy statement.

Manager Doyon reviewed the City of Great Falls Commission Goals for FY 2017-2018: (1) Implement 2016 Park Master Plan by pursuing a Park District; (2) Develop financing and bid specifications for Civic Center façade and roof project; (3) Address office space needs by utilizing existing City property; (4) Focus on public safety needs including capital, operations, training, and equipment replacement; (5) Refine the boards and commissions appointment process; (6) Reestablish a Historic Preservation Officer; (7) Explore options to retire golf fund debt from the general fund; and (8) Renovate the Animal Shelter using a grant. He also briefly discussed the tentative budget schedule for FY 2018-2019.

Manager Doyon discussed his budget philosophy indicating that budget impacts vary from year to year, and everyone brings a different perspective to the budget process. There is a balance among these perspectives typically guided by a community vision, education, engagement, and performance indicators or measurement. He added that the budget is typically lean due to being a slow growth community that is over dependent on Malmstrom Air Force Base. He is supportive of responsible, balanced economic development. Discussion followed about the use of Tax Increment Financing (TIF), it's long term investment, and that the City is TIF'd out. His budget focus has been on addressing needs versus wants of the departments.

He noted that the City has a draft Capital Improvement Plan. The City has been weak on facility capital improvement planning, and not adequately anticipating costs of operation and subsequent maintenance. Examples of both include the Natatorium and the Civic Center. Other budget impacts include grants, collective bargaining agreements, and deferred maintenance that becomes critical.

He reported that the budget is formally adopted through a transparent process. But, it's being constantly reviewed, monitored and, if appropriate, amended. The budget resolution gives the City Manager certain authority to be mindful of.

Manager Doyon and Finance Director Melissa Kinzler reviewed and discussed the attached material: General Fund Budget to Actual & Pro Forma 5 Year of Actuals and 4 Years of Projections, Fund Detail Worksheets, and the general budget timeline.

Director Kinzler explained that not utilizing the State cap and permissive medical levy would have a dramatic impact on the general fund.

Commissioner Houck suggested that during the City Manager's budget presentation he more fully explain parts of the budget that are due to state or federal regulations out of the City's control.

In response to Commissioner Robinson's inquiry about how the City accounts for depreciation of equipment, Director Kinzler explained Central Garage's revolving equipment schedule, taking into account depreciation, but not facility maintenance. She also explained the use of voted and non-voted debt for larger purchases.

Director Kinzler reported that Great Falls has typically adopted the budget, after receiving the Department of Revenue's taxable valuation. The budget is presented at fund level by division. If the Commission wants more detail, line item information could be included. The budget process is governed by Title 7, Local Government Budget Act.

Discussion followed about how tax appeals affect the State's taxable valuation and the City's budget.

Commissioner Moe indicated a concern of hers was enterprise funds not being self sustaining.

Lunch break 12:00 noon - 12:28 p.m.

Manager Doyon reported that the plan for the Visitor Center property is a lease to generate revenue for parks.

Director Kinzler reviewed and discussed the attached PowerPoint slides that included general fund trends, revenue versus expenses, unreserved general fund balance, expenses amended versus actual expenses, general fund revenue increases, FTE summary, and history of wage increases. She explained that personal services is the largest part of the budget, and of those 75% are under a collective bargaining agreement. Discussion followed about compression issues and not adequately budgeting for retirement buy-outs. Internal service charges are more fully explained in a booklet she has if any Commission member is interested. She reported that the recommendation to the Commission this fiscal year will be a 22% unreserved general fund balance, as opposed to the Government Finance Officers Association recommendation of 17%.

Additional discussion pertained to newly taxable property. The City receives that benefit the first year only. After that, the tax benefits go to Helena and get allocated back through other means. HB 124 was discussed, as well as exemptions from the property tax levy, and the procedure for calculating levy set forth in Mont. Code Ann. § 15-10-420.

Break 1:57 p.m. to 2:05 p.m.

Manager Doyon commented that he is seeking input on Commission goals to guide the budget process. He again reviewed portions of the State of the City Recap, emphasizing the Court's trial schedule and need for additional courtroom, as well as office space logistics of the Human Resources, Planning and Community Development and Legal departments. He inquired if anyone had any resistance to him having an architect investigate use of the Missouri Room for office space. No one indicated any reservations so long as the remodel was temporary and the room could be returned to its original characteristics if need be.

Director Kinzler reviewed McKinstry's Facility Improvement Measure Summary that set forth areas of concern, needed deferred maintenance and/or replacement, and energy savings. Manager Doyon suggested that McKinstry's findings be reviewed at a work session to look at opportunities to address issues of concern during the budget process.

2. Preliminary Discussion on Commission Budget for Fiscal Year 2019.

Due to the lack of time, Manager Doyon commented that specific goals of the Commission, as well as this this item will be rescheduled.

Mayor Kelly suggested that staff first arrange a meeting with Training/Development Coordinator Mark Willmarth to query what is critical to each of the City Commission members.

Commissioner Houck left the meeting at 2:25 p.m.

#### 3. Public Comment.

**Donna Williams**, 2916 2nd Avenue North, expressed appreciation to the Commission.

**Brad Livingston**, 2704 Big Ranch Road, commented that he has prepared many federal and state budgets and was appreciative of the City's transparency, amount of information on the City's website, and approach during the budget process to take care of the public interest. He encouraged the City to continue to push public safety. Due to drugs being a big problem, the Court system is over burdened, and police and sheriff personnel are tired of reacting. More law enforcement is needed to handle issues that are not being resolved. He believes the public would support a levy. He further expressed support of the recommended unreserved fund balance.

Deputy City Manager Chuck Anderson reported that Leadership Great Falls will be hosting a "Splash for Cash" benefit to raise money to turn a garage into a wood working shop for the Grace Home Veteran's Center on May 3, 2018.

There being no one further to address the Commission and no further discussion, Mayor Kelly adjourned the informal special work session of April 13, 2018, at 2:35 p.m.
