CITY COMMISSION MEETING

JUNE 4, 2019

Pam Hendrickson, 1321 5th Avenue North

Once again I am asking Commissioner Robinson to remove himself from all discussions related to a potential partnership with the Maclean Animal Center and the City animal shelter. As past president of the Animal Foundation there is no reason in the world to believe that you have no vested interest in assisting Maclean in their lengthy and ongoing efforts to talk the City into paying their bills.

And I am asking Commissioner Moe to recuse herself due to her duplicity in this matter, and to provide documentation about where these huge cost savings are coming from.

I am asking Commissioner Bronson to stop worrying so much about the supposed interity of these two people and start looking at the facts of the matter.

Lastly I am asking the Mayor to stand up for transparency in City government, and to allow taxpayers to participate in discussions they have interest in.

In closing I would like to respond to the lectures from Commissioners Bronson and Moe about those of us who are "holding on to grievances of the past." Do the hairs on the back of my neck go up when I hear about the City talking with Maclean? Absolutely. But this isn't sour grapes. It is justified alarm at the prospect of spending more tax funds than we already are. It's about my objections to bailing out a nonprofit that always assumed the City would step up and therefore failed to plan appropriately to run themselves for the long-term. And maybe more than anything, I am determined to stop the smoke and mirrors that seems to be so prevalent with this particular City Commission.

To the honorable District Attorney
and Mayor and City Council

Megan's Law -
Amnesty for Students

In violation of the law.

One year probation with reporting to a
probation officer every two weeks. Drug testing

Provided they stay in school with good grades
Fines would be withheld and forgiven,
