Subject: Commission comments

Honorable Members of the Great Falls City Commission:

Thank you for allowing me to submit comments on various commission items . First, please adopt the minor TIP amendment and BARSAA funding as it will help infrastructure in Great Falls. I know the highway projects that are studied and approved for construction work will benefit our city. I hope the work continues but I hope that we could ensure that pedestrian and accessibility and disability issues are paramount. We need to study signal timing and way finding in Great Falls. I am excited to know that Great Falls has received a Main Street Montana grant that will help continue the vital work that shows how we can revitalize our down town. Many of us live though in neighborhoods and we would like to know how you plan to vitalize our micro communities?

I am thrilled that the Electric City Waterpark has gotten needed accessibility attention but will all of our neighborhoods benefit from the current efforts ? How will we as community pay for our future?
