The Great Falls Development Authority urges your support of item 11 regarding issuance of a bond in the West Bank Urban Renewal District. The bond will save the City a significant amount of interest and reimburse the developers of West Bank Landing for public

infrastructure investment. We believe it will also help promote further private investment in the district.

As a further benefit, the West Bank Landing developers will use their reimbursement to pay off loans made to them by the Great Falls Development Authority. This will allow use to reinvest the loan capital into new developments, particularly those involving brownfield redevelopment.

Thank you again for all of the City's efforts, going back at least 17 years, to support redevelopment of the West Bank area!
