Great Falls, MT 59401

Greetings, Great Falls,

I'd like to give a shout-out to the workers in the grocery stores. They've had a lot of extra hard work in the past few weeks taking care of us. Also, I'm grateful to everyone on janitorial and cleaning crews for all the extra delightful work they have to do to keep us safe and healthy.

Often the people we pay the least attention to are the ones who do the most for us.

What I've learned from Covid-19 is that China is not far away; it's right next door. I thought I lived in Great Falls, but now I know I live in the world, a very small world, a little blue marble with one thin sky above us that all living beings share together. My heart goes out to those who have lost a loved one.

Tomorrow is the 50th Anniversary of Earth Day. Please thank everyone who makes your life beautiful.

Last week's average atmospheric CO<sub>2</sub> was 416 ppm.
