Krista,

You are correct. Only the first attachment referenced in the email below and highlighted in yellow is new. The others were provided to City Staff and Commission back in October and have not been edited or changed. They are already in the agenda packet uploaded on your website.

Libby,

In reviewing this email and attachments I understand that the Animal Foundation Final Response to Staff Report Dated 12.11.2020 is new but I believe that the other attachments are included in the original work session packet. Can you clarify if the documents attached in your submission today are different than the documents already included in the packet? This will be posted online with all the other meeting correspondence and I would like to make sure to note any changes made to the documents for the Commission's review and consideration. Thanks, Krista
