Dear Greg + Chuck,

I'd like to be among the first to congratulate you on prolonging and delaying the proposed partnership with the Maxton Cameron Animal Adoption Center, just long enough to wear everyone down and win the battle!

You both are to be commended on your exquisite delaying tactics. I think Sun Tzu could learn a thing or two from the two of you. And how important is it, really, to save taxpayer dollars by partnering when your egos are much more important than that. Way To Go!

It's just too bad for those poor animals in the city shelter who are the real victims of your victory.

Oh well, it is what it is!

well done!

Congratulations
and Hats Off To You Both!
