Eric,

April 5th 2022

I was at the city commission meeting tonight and I wanted to thank you for speaking up about school inclusive park.

While I can't know for sure, I suspect that the act of pushing it off till the next session was a sneaky way to kill the project. I didn't think it would be such a hot button issue.

I also suspect that the opposition might be because its funding for a low income school; a community that doesn't 'deserve' assistance. Again, just a suspicion.

Hope you don't catch any flak for it, or more so, no more than choice at a city commission would generate. I think it was the right call, and it will pay dividends for the community. Thank you for speaking up.

Sincerely,

Michael Yegerian
