To the Great Falls City Commission: My name is Shyla Patera. I am the independent living specialist employed by and representing North Central Independent Living Services trauma Inc. We, at NCILS, support the building of Carter Commons . Housing is important for people with disabilities and Great Falls seniors and the commission support of Carter Commons will assist our city in promoting accessible , affordable, and universally designed housing. NCILS will work with the GreatFalls BID to enhance accessible tourism options in Great Falls for all of Montana and Montanans with disabilities.
