

Item: Resolution 9982, a Resolution of Intent to annex portions of the Sun River and 13th Ave SW, and Ordinance 3095 to assign City Zoning to 1359 13th Ave SW, legally described as Mark 1, Sun River Bridge Garden Tracts, Section 15, T20N, R3E, Cascade County, MT and portion of abutting 13th Ave SW right-of-way and Sun River

From: Jana Cooper, RLA, Planner II, Planning and Community Development

Initiated By: Deloris M. Russell Trust, Property Owner

Presented By: Mike Haynes, AICP, Director of Planning and Community Development

Action Requested: City Commission adopt Resolution 9982 and accept Ordinance 3095 on first reading and set a public hearing for August 7, 2012.

Suggested Motion:

1. Commissioner moves:

“I move that the City Commission (adopt/deny) Resolution 9982.”

and;

“I move that the City Commission (accept/deny) Ordinance 3095 on first reading and set a public hearing for August 7, 2012.”

2. Mayor calls for a second, discussion, inquiries from the public, and calls for the vote after each motion.

Recommendation: At the conclusion of a public hearing held June 26, 2012, the Planning Advisory Board conditionally approved the annexation of 1359 13th Ave SW, and the Zoning Commission approved assigning a zoning classification of R-1 Single-family low density residential district to the property upon annexation to the City. Public Notice for the Planning Advisory Board/Zoning Commission Public Hearing was published in the *Great Falls Tribune* on June 10, 2012. Staff received one comment from a neighboring property regarding the annexation and how it would affect their property.

Staff recommends approval of the proposed annexation and zoning of ±1.85 acres of unincorporated land legally described as Mark 1, Sun River Bridge Garden Tracts, Section 15, T20N, R3E, Cascade County, MT and portion of abutting 13th Ave SW right-of-way and Sun River.

Background: The owner of 1359 13th Street Southwest is requesting annexation of their property

that consists of ±0.67 acres. There is a single family residence on the property and the owner is making the request in order to extend and connect to City water services and utilize existing City sewer services.

In addition to the subject property, a portion of the Sun River abutting the subject property consisting of ±0.55 acres and, per MCA, the abutting portions of 13th Avenue Southwest, comprised of ±0.63 acres, are also being annexed as a part of the request. In total ±1.85 acres will be annexed into the City.

The subject property abuts 13th Avenue Southwest, which is paved without curb, gutter or sidewalks. Properties west of the subject property are already annexed into the City, but the adjacent right-of-way has not been annexed. In order to simplify maintenance responsibility, the City's Street Division requires 13th Avenue Southwest be annexed from 14th Street Southwest to the eastern property line of the subject property. As a condition of annexation, any roadway section (paving, gravel and subgrade) that is disturbed during construction activities of the project shall be restored to their original condition. Public Works is not requiring any escrow of funds for the improvement of 13th Avenue Southwest. The owners will waive their right to protest a future special improvement district for roadway improvements as a condition of annexation.

There is an existing 8-inch water main located in 14th Street Southwest. The applicant proposes to extend an 8- inch City water main from the existing main to the eastern boundary of the subject property and connect service to this line. There is an existing 14 inch sewer in 13th Avenue Southwest. The applicant will be required to connect to the existing sewer and pay any reimbursement owed for the installation of this line. As a condition of annexation, the owner will be required to install a fire hydrant in a location determined by Public Works and the Fire Department. The existing properties adjacent to 13th Avenue Southwest that are already annexed into the City will be responsible for their portion of the new water main per existing agreements on file at the Planning and Community Development office and the owner will be eligible for reimbursement of the water main and hydrant as the remaining properties which are not currently in the City are annexed.

The request does not include a proposal for any new development; therefore, it is reasonable to assume that there would be no increased traffic demands caused by this request.

The applicant will not be required to extend storm drain facilities in the area. Any future expansion of facilities is subject to review by the Department of Public Works for applicable storm water regulations. The owner will waive their right to protest a future special improvement district for any storm drain improvements as a condition of annexation.

Zoning of the subject property will enhance health, safety and welfare through application of City Codes and provision of municipal services.

Section 76-2-304 Montana Code Annotated lists criteria and guidelines which must be considered in conjunction with establishing municipal zoning on land:

(1) Zoning regulations must be:

(a) made in accordance with a growth policy; and

(b) designed to:

(i) secure safety from fire and other dangers;

(ii) promote public health, public safety, and the general welfare; and

(iii) facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements.

(2) In the adoption of zoning regulations, the municipal governing body shall consider:

- (a) reasonable provision of adequate light and air;
- (b) the effect on motorized and nonmotorized transportation systems;
- (c) promotion of compatible urban growth;
- (d) the character of the district and its peculiar suitability for particular uses; and
- (e) conserving the value of buildings and encouraging the most appropriate use of land throughout the jurisdictional area.

Applicable policy statements include “residential land uses should be planned and located so that they do not result in adverse impacts upon one another.” Therefore, staff concludes the above-cited criteria are substantially met.

The proposed development is compatible with the 2005 Growth Policy, as it advances specific Goals, Policies, and Action Strategies contained within the related plan elements, and is also in line with the general themes and principles found in the document. Plan elements related to the proposed development include providing infill development and protecting and enhancing the character of existing neighborhoods. The Growth Policy also states that annexations should be logical and efficient extensions of the City’s boundaries and service areas, which applies to this project.

Patty Cadwell, Neighborhood Council Coordinator, presented the project to Neighborhood Council #1 on May 15, 2012. There were no comments from Neighborhood Council #1, but the Planning Department has received one question from the owner of the property to the east, which is located in the county, who wanted to know how the annexation would affect their property.

It is anticipated the City Commission, at the public hearing on August 7, 2012, will consider the resolution to annex and an annexation agreement for 1359 13th Ave SW, simultaneously with Ordinance 3095.

Concurrences: Representatives from the City’s Public Works, Park and Recreation and Fire Departments have been involved throughout the review and approval process for this project.

Fiscal Impact: The annexation will marginally expand the fire and police service area, which will have a minimal fiscal impact on the City. The City should see a slight increase in tax revenues from the improvements being made to the property.

Alternatives: The City Commission could deny acceptance of Ordinance 3095 on first reading and not set the public hearing. However, such action would deny the applicant due process and consideration of a public hearing, as provided for in City Code and State Statute.
