Old Business-

36th Ave.NE Speed study updates presented by Jerry McKinley. Studies are on file.

Increasing speed limit does not seem to correlate to substantial increases in speed. Council wants to

Proceed with whatever steps need to be taken and will publicize we are considering the speed limit
issue on 36th Ave. NE in the hopes that residents will attend and offer input. Tim will work with

Patty and likely the info will come through the city commissioner.

New Business--none

Neighbor Concerns---Cyndi cited increases in animal cruelty crimes in our area.

Property tax statements are out and it was agreed that getting someone from the city and county
to come to a meeting after the first of the year and go through each fee, step by step, would be
helpful and quite interesting to residents. Sue will work on arranging that program.

Other Business----none
