Dear Neighborhood Council #1 members:

I would please like Neighborhood Council #1 to look into options to reduce the vehicles speeding on Fox Farm Road. I realize that speeding is not isolated to the Fox Farm area AND that our city police resources are limited BUT there must be some options out there to reduce the amount of people that use Fox Farm Road to make reckless driving decisions. I am VERY concerned with this road being a primary path for children to get to the Meadowlark School that someday soon a speeding vehicle will hit a child trying to cross the road. This is especially bad at the southern edge of the city limits/Fox Farm Road where people are either picking up speed before leaving city limits or do not slow down entering town until way into city limits.

I did send in a request to the Great Falls Police Department to look into this speeding issue but was only notified that they received my note.

This speeding problem is not 24/7 but frequent enough that if you would like to witness it try almost any late afternoon on the weekends.

Thanks for considering my request.

Sincerely,

Al Rollo
