New Business:

1. Chief Jeff Newton, GFPD:

- The dept. is down four sworn officers. Seven command staff are eligible for retirement.
- Captain Shafer is retiring as of March 1, 2024 after more than 34 years of service. Captain Otto will move to patrol.
- The Patrol division is young and inexperienced with the average age being 26 years old.
- It continues to be a problem to hire dispatchers due to the nature of the position. The department is down eight dispatchers.
- Hiring challenges are not unique to Great Falls. Chief Newton continues to enforce quality over expediency to ensure that selection of officers is integrity based. In response to a question, MAFB is not a consistent candidacy pool from which to draw applicants.
- A budget readjustment will be needed after the public safety levy failed.
- A special City Commission works session will be held on Monday, February 12 to talk more about public safety.

2. Brock Cherry, Director Planning and Community Development:

Spoke about the city's growth policy, and said that it is the People's Plan. It is not a regulatory document, but a strategic road map based upon objectives that must be measurable, realistic, and provide tangible results. He encouraged Neighborhood Council members to be involved by identifying our neighborhood's specific needs. He is looking forward to attending NC meetings to discuss the process further. He also explained the rough timeline leading to the adoption of the growth plan tentatively scheduled for Nov. 2025.

- **NC2-** Frank S. reported on the Bayview Apartments rezoning.

They would like to have traffic evaluated near Super1, and also near 10th Ave S and 38th St. He will contact Andrew Finch, City Transportation Planner, to request an expedited speed limit study.
