

ORDINANCE 3130

AN ORDINANCE AMENDING TITLE 17, CHAPTER 68 OF THE OFFICIAL CODE OF THE CITY GREAT FALLS (OCCGF) PERTAINING TO PROCEDURES AND STANDARDS FOR PARK LAND DEDICATION OR PAYMENT IN-LIEU THEREOF

* * * * *

WHEREAS, Montana Code Annotated 76-3-621 requires those subdividers creating residential subdivisions to dedicate land for a park or, alternatively, to make an equivalent cash payment to support the development, acquisition, or maintenance of parks, recreation areas or open space; and

WHEREAS, Montana Code Annotated 76-3-621 requires local governments to adopt regulations governing park land dedication or payments in-lieu of dedication; and

WHEREAS, the City of Great Falls wishes to ensure that adequate parks exist within a reasonable walking distance of most new dwellings, as they do for most existing dwellings.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF GREAT FALLS, MONTANA:

Section 1. That Title 17, Chapter 68 of the OCCGF be amended as depicted in Exhibit "A" attached hereto, which removes any language indicated by a strike-out and adds language which is bolded;

Section 2. This ordinance shall be in full force and effect thirty (30) days after second reading and final adoption by the City Commission.

APPROVED by the City Commission on first reading March 17, 2014.

ADOPTED by the City Commission of the City of Great Falls, Montana on second reading May 19, 2015.

Michael J. Winters, Mayor

ATTEST:

Lisa Kunz, City Clerk

(Seal of the City)

APPROVED FOR LEGAL CONTENT:

Sara R. Sexe, City Attorney

State of Montana)
County of Cascade : ss
City of Great Falls)

I, Lisa Kunz, City Clerk of the City of Great Falls, Montana, do hereby certify that I did post, as required by law and as prescribed and directed by the City Commission, Ordinance 3130 in three places within the limits of said City to-wit:

On the Bulletin Board, first floor, Civic Center Building;
On the Bulletin Board, first floor, Cascade County Court House;
On the Bulletin Board, Great Falls Public Library

(Seal of the City)

Lisa Kunz, City Clerk

17.68.070 Dedication of parks: process.

Residential subdivisions, which for the purposes of this section also include mixed-use subdivisions and planned unit developments that will include both residential and nonresidential uses, must comply with the park dedication requirements established by Mont. Code Ann. 76-3-621. Compliance shall be determined using the following process.

- A. **Pre-Application.** All pre-applications for residential subdivisions shall show one or more proposed neighborhood parks that meet the standards established here; indicate that the applicant prefers to make a cash payment in-lieu of the dedication of park land; or show, in writing, how the application is exempt for any of the reasons listed in Mont. Code Ann. 76-3-621(6).
- B. **Pre-Application Review.** The Director of Planning and Community Development or his designee will review the pre-application and suggest any changes to the proposed park dedication that are needed before an application is filed. The review will be based on the requirements of Mont. Code Ann. 76-3-621; the standards adopted in 17.68.080 of this article; the City’s parks plan; and the growth policy.
- C. **Planning Board Review.** In preparing its recommendation to the City Commission on an application for a residential subdivision, the Planning Advisory Board shall include a specific determination of whether or not the proposed residential subdivision complies with the requirements of Mont. Code Ann. 76-3-621; the standards adopted in 17.68.080; and the City’s parks plan.
- D. **City Commission Review.** In deciding whether or not to approve an application for a residential subdivision, the City Commission shall make a specific determination of whether or not the proposed residential subdivision complies with the requirements of Mont. Code Ann. 76-3-621; the standards adopted in 17.68.080; and the City’s parks plan.
- E. **Improvement Agreement.** Where an improvement agreement is required for a residential subdivision, the draft improvement agreement presented to the Planning Advisory Board and the City Commission shall include the language necessary to provide for the

Exhibit "A"

dedication of the proposed park or parks (dedication may, at the City's discretion, be phased); for the payment of the fee in-lieu of dedication; or for the recording of the documents needed to demonstrate that the proposed subdivision is exempt, as provided by Mont. Code Ann. 76-3-621(6).

- F. **Enforcement.** No Certificate of Occupancy for any structure in a residential subdivision shall be issued until a final plat bearing a certificate of park dedication has been recorded with the Cascade County Clerk and Recorder; a payment in lieu of park dedication has been received; the documents demonstrating that the subdivision is eligible for an exemption have been recorded with the Cascade County Clerk and Recorder; or an improvement agreement providing for the phased dedication of one or more parks or phased payments in-lieu of park dedication has been executed and recorded with the Cascade County Clerk and Recorder.

(Ord. No. 3130, 4-21-2015)

17.68.080 Dedication of parks: standards.

- A. **Basic Dedication Requirement.** As provided in Mont. Code Ann. 76-3-621(1), the park dedication requirement is:

- i. 11% of the area proposed to be divided into residential parcels of $\frac{1}{2}$ acre or less;
- ii. 7.5% of the area proposed to be divided into residential parcels that are larger than $\frac{1}{2}$ acre, but smaller than 1 acre;
- iii. 5% of the area proposed to be divided into residential parcels that are larger than 1 acre, but smaller than 3 acres;
- iv. 2.5% of area proposed to be divided into residential parcels that are larger than 3 acres, but 5 acres or smaller; or
- v. Where acceptable to the City, a cash payment of the value of the un-subdivided, unimproved land that would, otherwise, be dedicated in one or more parks. The calculation of payments in-lieu of the dedication of park land is described in 17.68.090.
- vi. There is no park dedication requirement for subdivisions that create parcels that are larger than 5 acres.
- vii. For mixed-use subdivisions or planned unit developments that will include both residential and nonresidential uses, only the land that is to be developed for residential use will be used as a basis for the calculation of the area to be dedicated.

- B. **Exceptions to the Basic Dedication Requirement.** Mont. Code Ann. 76-3-621(6) offers exceptions to the park dedication requirement.

- i. **Private Parks.** An applicant may propose to provide one or more privately developed and maintained parks that include at least as much land as would be dedicated in accord with 17.68.080.A. An applicant who wishes to use this exception must present a detailed plan for the development and use of the private park or parks, including the phasing of park development, if that is proposed, as well as a proposed mechanism for maintenance of the private parks in the long run. The applicant shall also provide a security sufficient for

Exhibit "A"

the completion of the private park or parks as if they were public improvements.

- ii. **Open Space.** The second exception is where the applicant provides for the permanent protection of open space resources on at least as much land as would be dedicated through the gift of a conservation easement or land fee simple to an accredited land trust or to a public agency charged with the management of such resources.
 - iii. **At Another Location.** Mont. Code Ann. 76-3-621(6) also makes it possible for an applicant to propose to provide the required park space at another location, outside the proposed residential subdivision. This will be acceptable to the City only if the park proposed outside the proposed residential subdivision complies with the standards adopted in this section and is consistent with the City's parks plan.
- C. Distance from Another Park.** A park land dedication generally will not be accepted where it is within 3/8 mile (1,980 feet) of an existing or future (already dedicated, but not developed) neighborhood park or a community or regional park that serves neighborhood park functions. Exceptions to this rule may be permitted where the dedication will add land or provide trail access to an existing park, consistent with the City's parks plan.
- D. Distance from Homes Served.** A proposed park should be within 3/8 mile of the majority of the homes it is intended to serve. It is recognized, however, that the terrain and existing land use patterns may make meeting this standard a challenge for some proposed subdivisions. If no suitable site is available within 1,980 feet, the Planning Advisory Board may recommend and the City Commission may accept a site that is within a half-mile (2,640 feet) of the majority of the homes it is intended to serve.
- E. Accessibility.** Proposed neighborhood parks must be accessible to the homes they are intended to serve by a generally continuous system of sidewalks and/or trails that do not cross arterial streets at grade. They must also have safe, adequate access via public streets along which on-street parking is permitted. This standard shall not be read to mean that a proposed neighborhood park must have street frontage on all sides.
- F. Minimum Area.** The minimum area of a proposed neighborhood park should be three (3) acres. The Planning Advisory Board may recommend and the City Commission may accept exceptions to this rule where a smaller area can be added to an existing park or will provide a trail right-of-way or another significant recreational or open space asset, and the remainder of the applicant's park land dedication obligation, if any, will be fulfilled by a payment in-lieu of dedication.
- G. Useful Shape.** While linear park and open space areas serve many useful functions, any land offered for dedication must include areas that are suitable for and large enough for the installation of typical neighborhood park facilities including playgrounds, basketball or multi-sport courts, picnic areas or shelters, and areas for informal field games like soccer or softball.
- H. Suitable Lands.** Lands offered for dedication must contain areas that are suitable for the construction or installation of typical neighborhood park facilities. This means lands that have a slope of less than four (4) percent and soils that do not impose severe limitations on the development of picnic areas or playgrounds, as shown in the *Soil Survey of Cascade County Area, Montana* issued by the US Department of Agriculture, Soil Conservation Service in January 1982.
- I. Open Space Lands.** If sufficient land suitable for the development of typical neighborhood park facilities is provided, dedicated parks may also include open space lands that are not

Exhibit "A"

as suitable for park development, but provide community services like flood control, storm water treatment, microclimate modification, urban wildlife habitat, and/or aesthetic enjoyment.

(Ord. No. 3130, 4-21-2015)

17.68.090 Calculation of fees in-lieu of park dedication.

As established in 17.68.080(A)(v), the City may accept cash payments in-lieu of the dedication of park land. The amount of the payment required will depend on the value of the land, which may be determined using either of the two methods described below.

- A. **Appraisal.** The applicant may submit a current, which for this purpose means made within the past year, appraisal of the un-subdivided, unimproved land proposed for subdivision to serve as a basis for the calculation of fees to be paid in lieu of park land dedication. Such appraisals shall be prepared by an appraiser who is licensed and certified to practice in the State of Montana pursuant to Mont. Code Ann. 37-54-101, et seq.
- B. **Formula.** The City Commission may, by resolution, adopt a standard formula for payments to be made in-lieu of the dedication of park land. If adopted, applicants may choose to base their payment in-lieu on this formula rather than submitting an appraisal. The adopted formula shall be reviewed and, if necessary, revised to reflect current land values at least every three years.
- C. **Use.** The Fiscal Services Department will establish procedures by which payments accepted in-lieu of dedications are tracked and it can be shown that those payments have been expended in compliance with the requirements of this code and Mont. Code Ann. 76-3-621.

(Ord. No. 3130, 4-21-2015)

17.68.100 Neighborhood park maintenance charges.

Improvement agreements for residential subdivisions, including mixed-use subdivisions and planned unit developments that will include residential uses may establish a reasonable neighborhood park maintenance charge on all residential parcels, including all residential condominium units, created. Lots used for attached dwellings that remain in one ownership will pay the required charge for each dwelling unit permitted on that lot.

(Ord. No. 3130, 4-21-2015)
