

NOTICE OF AVAILABILITY

City of Great Falls Proposed Recreation Center Great Falls, Montana

The U.S Air Force and the City of Great Falls is proposing to construct a new Recreation Center in the City of Great Falls. The original City Pool, the Marony Natatorium, had to close its doors in 2018 due to structural failure leaving the community with no public indoor pool facility. The new facility would include a lap pool, a recreational pool for community and service member families and children, general open fitness areas, an indoor gym space, a child watch space, classrooms, and ancillary support facilities.

The City of Great Falls and the U.S. Air Force has prepared an Environmental Assessment (EA) and Finding of No Significant Impact, (FONSI), pursuant to the National Environmental Policy Act (NEPA), that is available for public comment. The EA and FONSI evaluate the environmental impacts from construction and planned renovations. The public comment period for the EA and FONSI is for 30 days from the date of this posting.

The City of Great Falls and the Air Force has prepared, pursuant to NEPA, a draft EA and a draft FONSI. The EA and FONSI can be found online at <https://www.gfreccenterea.com> and at the following libraries:

Great Falls Public Library
301 2nd Ave N
Great Falls MT, 59401

University of Providence Library
1301 20th St S
Great Falls MT, 59405
