Overview

The meeting began at 3:30 PM with an introduction to the meeting by Planning & Community Development Director Brock Cherry. Mr. Cherry prompted Steering Committee members to discuss the newly created Public Engagement Report and any impressions they had on the document.

Mr. Cherry and Ms. Mouch then turned the discussion to the Growth Policy vision statement and principles. The group considered the proposed draft, created by the consultant and City staff team, and made suggestions and edits.

Mr. Cherry presented the Steering Committee with a 'homework' task of drafting growth policy principles to have ready at the next meeting, to be held in July.

Although there was no specific recorded public comment, Commissioner Shannon Wilson participated in the discussion at the end of the meeting.

Meeting adjourned at 5:00 PM.
